

## **STORAGE SOLUTIONS**

The order of your warehouse, to another level.

## STORAGE SYSTEM LM-SYSTEM

The LM-System consists on custom-made racks, with the possibility of expanding the storage installation, according to the needs of each client.

Each individual storage location has one or more sliding supports inside (depending on the bending of the material) on which the stored material rests.

### SETTINGS

Size: **3 m - 15 m / 10 ft - 50 ft**

Weight: **from 500 Kg up to 6.000 Kg** (per location)

**from 1000 lb up to 14.000 lb** (per location)

Storage height: **1.8 m - 5 m / 6 ft - 17 ft**

### ADVANTAGES

Space optimization and saving time

Better **organization and traceability**: improves stock control

More **safety and reliability**: reduction in working hazards

**Step by Step investment**: Scaling modular system

# STORAGE SYSTEM FOR LONG MATERIALS

## LM-SYSTEM

UPMOVIDOM storage systems are designed to store different types of materials with the aim of optimizing the warehouse space, custom designed, based on the needs of each client.

## UPPER STORAGE

This system allows optimization of your facilities; the upper part of the rack can be used as an extra storage surface.

### CONTAINERS

Fully optimize the space

Solutions for small pieces, leftovers and fine material, with the possibility to use removable separators for smaller packages.

### BEFORE AND AFTER

A1 D1 / A2 D2

Two examples of companies, before and after installing our storage LM-Systems.

# SHEET STORAGE SYSTEM CH-SYSTEM

CH-System storage systems facilitates the organization of your sheet metal material in an orderly manner and with easy access for handling, in a limited space, increasing both the safety and productivity of your business.

- 1 & 2. CHA folding doors
- 3. CHX Combined
- 4. CHC Removable shelves
- 5. CHA folding doors
- 6. CHA with integrated crane
- 7. CHF different weights
- 8. CHA folding doors

Sheet sizes: from **2000 x 1000mm / 36 x 96"**  
up to **6000 x 2500mm / 72 x 240"**

Weight per level: **200 - 3.000 Kg / 400 - 6500 lb**  
(5.000 / 12.000 lb for automatic version)

Storage height: **1.8 m - 5 m / 6 ft - 17 ft**

Storage levels: **From 5 up to 20 levels**

# STORAGE SYSTEM FOR LEFTOVERS RP-SYSTEM

**UPMOVIM**  
SISTEMAS EFICIENTES DE ALMACENAJE

Two storing systems whose extraction is carried out laterally. Ideal for delicate material and leftovers: crank handle **cantilever or rolling system**, manual or automatic. Up to 100 references.

**1**, RPF **2**, RPF sheet metal base **3**, RPF systems opposite to each other  
**4 & 5**, RPF delicate material **6**, RPF delicate material **7 & 8**, RPC crank **9**, RPC automatic

For materials **up to 12 m / 40 ft**  
Weight per level: **7000 Kg / 15000''** (Máx.)  
Storing levels: **up to 10 levels**  
Removable separators for small packages.

# AUXILIARY DEVICES FOR HANDLING

Auxiliary elements custom made for our systems.  
100% adaptable to every type of installation.  
Simple to use and maintain.

1. External support
2. External support Ladder with platform
3. Forklift
4. Pallet truck
5. Racks with integrated crane

# SYSTEMS FOR ORDER PREPARATION

1. Hydraulic Platform
2. Autonomous Platform
3. Wagon
4. Electric Wagon
5. & 6. Platform with crane
