Plant boards

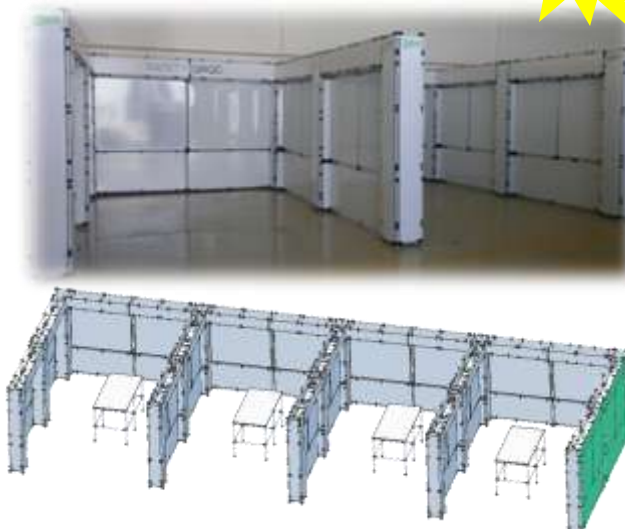

New

In an increasingly competitive world it is very important the Key performance indicators.

With this goal in mind 4Lean developed areas which highlights the indicators and make meetings more productive. These areas were named Plant Boards.

Contact us!

We could help you improving the visual management of your plant!

Mini wagon

New

Focusing on the continuous improvement and the competitiveness of our products, we've developed 2 new mini wagons:

- 800 x 600
- 1200 x 800

These solutions are perfect for transporting containers and pallets, reducing or even eliminating forklift trucks and stackers in some areas.

Advantages :

- Low cost
- Lighter
- Simple assembly

Editorial

Growth is the word that imposes reviewing the first half of the year 2014.

After the successful partnership with Lean Excellence Center, 4Lean has consolidated its internationalization, growing in key markets.

Our goal now is to make this growth sustainable, focusing on the development of new products and improving existing ones, becoming increasingly competitive.

We were present at the Supply Chain Meeting 2014 - international conference on logistics – and we also participated in BIEMH Bilbao - Spanish Biennial Exhibition of Machine - Tool.

This last participation allowed us to increase the share of the Spanish market and create new partnerships.

By the end of 2014, we will once again be in EMAF in Portugal in Exponor from 19th to 22th November.

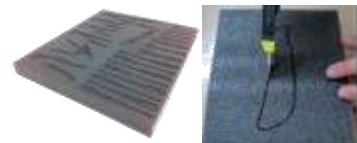

Until then, 4Lean wishes you nice vacations!

Claudia Marques

5S's

New

4Lean offers you the possibility to organize your tools.

4Lean can project and cut personalized foams adapted exclusively to you in WaterJet machines. Other option is the customer cut around the tools and extract foam to the exact depth for that tool. This creates a custom cut out for each tool, which not only organizes the space, but also makes better use of it. Contact us!
